

MEMORANDUM FOR: Chief of Support, EE Division

SUBJECT : Shipment of Privately Owned Vehicles

REFERENCE : Memo dtd 6 July 62 for SSA-DD/S fr C/EE/SS, same subj

1. The following comments are provided in response to paragraph 5 of the reference.

2. The clause "where practicable" of the cited regulation permits latitude for authorizing use of a foreign ship when shipping a privately owned vehicle at Government expense.

3. From the facts presented in the specific case, it appears that sufficient justification exists on the basis of cover and security considerations to determine that use of an American ship is not practicable. It is believed that the Chief of Station, [REDACTED] has sufficient authority to make this decision and may, therefore, authorize use of a foreign ship in this and similar instances where these factors clearly apply. He should fully document each case when authorizing such use in order to meet the requirement of satisfactory proof of necessity. In doubtful situations, referral to Headquarters for prior decision is indicated. See [REDACTED] 25X1A6b

4. Reiteration to the Station of the advice concerning title to the vehicle being vested in the employee prior to shipment and consignment to him rather than to a dealer is suggested as a desirable precautionary measure.

[REDACTED]
Acting Special Support Assistant/DDS

10.

It is our opinion that where overriding cover and security considerations are clearly present, the Chief of Station may authorize shipment of a POV on a foreign bottom without prior HQ's approval. He should also document each case where such authorization is given.
